Transfer Credit

Transfer credit is defined as graduate-level credit earned by a student at another accredited institution with a graduate program. Transfer credits cannot have been used for another degree and are subject to a limit. Only credit earned with a "B" or better grade ("P" grades are not accepted) within the past eight years will be considered. Transfer credit will only be approved if the content of the course is substantively equivalent to the content of a course within the Program curriculum. A review of course syllabi and/or products may be required to determine the equivalency of transfer courses. Requests for transfer credit must be approved by (1) the Major Professor, (2) the Program Director, and (3) the Department Head (in that order).

Course Waiver

In rare circumstances, a course waiver (exemption) may be provided for students who have accrued coursework or other training that is substantively equivalent to that required by the Program curriculum. A review of course syllabi and/or products may be required to determine the equivalency of coursework or other training. There is a limit to course waivers, and the

receipt of a waiver must be clearly documented in a memo placed in the student's Department file. Requests for course waivers must be approved by (1) your Major Professor, (2) the instructor of the relevant USU course, and (3) the Program Director (in that order).
