## I. Key Persons & Contact Information

### Program Director

Tyler L. Renshaw, PhD, NCSP  
tyler.renshaw@usu.edu  
(435) 757-6324 / EDUC 480

### Core Program Faculty

Maryellen McClain Verdoes, PhD, LP  
maryellen.mcclainverdoes@usu.edu  
(435) 797–6373 / EDUC 488

Gregory L. Callan, PhD, LP  
greg.callan@usu.edu  
(920) 427–1148 / EDUC 484

### Associated Program Faculty

Gretchen Gimpel Peacock, PhD, LP  
gretchen.peacock@usu.edu  
(435) 797–0721 / SCCE 452

### Psychology Graduate Coordinator

Krista Terrell  
krista.terrell@usu.edu  
(435) 797–0093 / EDUC 487B

### Psychology Department Head

Scott C. Bates, PhD  
scott.bates@usu.edu  
(435) 797–2975 / EDUC 487E
II. Preface

The Handbook is an essential resource to guide students and faculty through graduate studies in the program designated for an EdS in School Psychology—referred to hereafter as the “Program.” It is students’ responsibility to be aware of the requirements and policies that are contained within the Handbook. If students have questions about Program requirements or policies, they should first consult the Handbook. If questions remain unresolved, students should consult (1) their Major Professor, (2) the Program Director, and (3) the full Program faculty (in that order).

Some important things to know about the Handbook:

- The Handbook contains information about Program, Department, and School of Graduate Studies requirements that is typically dispersed across multiple locations. The Program faculty may revise information presented in future iterations of the Handbook, and there may be Program, Department, or School of Graduate Studies changes over the course of the academic year that have implications for requirements or policies in the Handbook. The Program and Department will notify students about any important changes to these requirements and policies. However, it is ultimately students’ responsibility to stay informed about all relevant requirements and policies.

- Students should also consider the Handbook as a supplement to the Graduate Catalog and other relevant University policies and procedures, not a replacement.

- It is students’ responsibility to maintain their own file with copies of important materials related to graduate training. When submitting forms to the School of Graduate Studies, students should be sure to keep copies for their personal records.

- The Program faculty collect and value student and supervisor feedback, and they carefully consider this feedback when making changes and improvements to Program requirements and policies.

- The Handbook is intended to function as a general guide for both students and Program faculty. That said, unanticipated or unique circumstances may arise that are not covered in the Handbook. Students should resolve such situations by consulting with (1) their Major Professor, (2) the Program Director, and (3) the full Program faculty (in that order).

- If students have suggestions about information to add or update within the Handbook, they should communicate these suggestions directly to their Major Professor and/or their Student Representative.
III. Diversity Values Statement

Respect for diversity, cultures, and lifestyles different from one’s own is a core value of the Program. This value goes hand-in-hand with our core value of promoting inclusion, anti-racism, equity, and social justice in all spaces in which we work, learn, and live. The Program’s commitment to these values is consistent with the values of the profession of School Psychology, as outlined in the National Association of School Psychologist’s (NASP) Principles of Professional Ethics (2010). Through all aspects of training, the Program strives to promote the wellbeing of minoritized, marginalized, and disadvantaged peoples.

Program faculty recognize that no individual is free from bias or prejudice, and we expect that the training community will evidence a range of attitudes, beliefs, and behaviors. While in the Program, students will engage in self-reflection regarding their cultural backgrounds, lifestyles, personal histories, and values. Students will also collaborate with, and provide services to, individuals who have culturally-different backgrounds, lifestyles, histories, and values from themselves. If students’ backgrounds or histories adversely affect their ability to perform the functions of a school psychologist in-training, then they will be expected to address and resolve these concerns. Evidence of biased, prejudicial, or racist beliefs and behavior will not go unchallenged, even when such behavior is rationalized as being a function of ignorance, joking, cultural differences, or substance misuse. If biased, prejudicial, or racist actions by students or faculty result in physical or psychological abuse, harassment, intimidation, substandard psychological services or research, or violence against persons or property, then members of the training community will intervene in a manner consistent with Program, Department, and University policies.

The Program strives to provide an inclusive and rigorous training environment, where persons from all backgrounds feel both socially supported and intellectually challenged. If students have concerns regarding Program requirements, policies, or culture as it relates to respect for diversity or the promotion of inclusion or equity, they are encouraged to voice and resolve their concerns through the Program process for expressing complaints and grievances (see the Additional Policies section of this Handbook). The Program faculty are committed to hearing all students’ voices and to using student feedback to actively improve the training climate.

USU’s Inclusion Center provides resources to students and faculty who are seeking support related to diversity/inclusion concerns or who are interested in learning about and becoming allies with diverse individuals and inclusive organizations on campus. The mission of the Inclusion Center is to create an affirming and supportive environment for LGBTQA+, Multicultural, and Nontraditional students. All students and faculty in the Program are encouraged to learn more about the resources and supports offered by the Inclusion Center: https://inclusion.usu.edu.

[Return to Table of Contents]
IV. Program Context

Following is a brief overview of the institutional, professional, approval, and credentialing contexts within which the Program is situated.

Institutional Context

The School Psychology EdS Program is housed in the Department of Psychology within the Emma Eccles Jones College of Education and Human Services at Utah State University. The Psychology Department maintains vigorous programs of faculty and student research and provides substantial service to the community, state, and profession. In addition to the School Psychology EdS Program, the Department offers doctoral degrees (PhD) in Psychology with specializations in several areas: School Psychology, Combined Clinical/Counseling Psychology, Behavior Analysis, Brain and Cognition, Quantitative Psychology, and Sociobehavioral Epidemiology. The Department also offers an undergraduate major (BS) in Psychology, a distance-learning master’s degree (MEd) in Professional School Counseling, and contributes to a multi-department doctoral degree (PhD) in Neuroscience. The Program faculty and students are involved in each aspect of the Department’s, College’s, and University’s missions and therefore strive for excellence in research, teaching, and service. For more information on the institutional context, visit the following websites:

- USU Psychology Department: http://psychology.usu.edu
- USU College of Education & Human Services: http://cehs.usu.edu
- Utah State University: http://usu.edu

Professional Context

School Psychologists work in schools and related settings to support the behavioral/mental health and educational success of youth and their caregivers. School psychologists take a scientific problem-solving approach toward their profession and have broad competencies in science-based assessment, intervention, and consultation. Professional preparation for a career in school psychology is accomplished at both the educational specialist (EdS) and the doctoral (PhD or PsyD) levels. EdS-level training prepares school psychologists to function primarily as practitioners in schools or other educational settings. PhD-level training builds on specialist-level training by preparing school psychologists with strong scientific research skills and additional competencies related to the broader practice of psychology outside of schools. Doctoral-level school psychologists are capable of being employed as practitioners in a variety of settings (e.g., schools, clinics, hospitals, private practice) or as faculty at universities and research institutes. The job outlook for school psychologists practicing in schools is currently very favorable in most regions of the U.S., whereas the job outlook for school psychology faculty in academia is relatively favorable (compared to faculty positions in other fields of psychology). For more information on the professional context, visit the websites for school psychology’s two professional parent organizations:
Approval Context

The School Psychology EdS Program has been continuously fully-approved by the National Association of School Psychologists (NASP) as a specialist-level training program since 1995. More information regarding NASP’s training standards and program approval process can be found at the following website: https://www.nasponline.org/standards-and-certification.

Credentialing Context

Completion of the School Psychology EdS Program will satisfy requirements for school psychology licensure/certification in Utah and most other states. Completion of the Program will also satisfy requirements for credentialing as a Nationally Certified School Psychologist (NCSP), which facilitates the licensure/certification process in most states.

Given the varied and changing requirements across jurisdictions, we have not determined, and cannot assure, that graduates will meet all requirements for educator licensure as a school psychologist in all states or territories. Students are encouraged to become familiar with relevant state board of education requirements and discuss their curricular plan regularly with their Major Professor and Program Director. This program meets requirements for educator licensing as a school psychologist in Utah. However, we have not determined if the program meets requirements for educator licensing in: AK, AL, AR, AS, AZ, CA, CO, CT, DC, DE, FL, GA, GU, HI, IA, ID, IL, IN, KS, KY, LA, MA, MD, ME, MI, MN, MO, MP, MS, MT, NC, ND, NE, NH, NJ, NM, NV, NY, OH, OK, OR, PA, PR, RI, SC, SD, TN, TX, UM, VA, VI, VT, WA, WI, WV, WY.

Students are encouraged to familiarize themselves with the various requirements for licensing and credentialing that accord with their post-graduation career goals. Further information regarding licensing requirements can be found on the following websites:

- Utah State Board of Education school psychology licensure requirements: https://www.nasponline.org/standards-and-certification/state-school-psychology-credentialing-requirements/states/utah
- NASP’s listing of state-specific credentialing requirements: https://www.nasponline.org/standards-and-certification/state-school-psychology-credentialing-requirements

[Return to Table of Contents]
V. Faculty

The Program is administered by core, adjunct, and contributing faculty. Core faculty serve as students’ Major Professors, teach courses, provide supervision for practicum, and are responsible for developing and enforcing Program requirements and policies. Associated faculty have similar roles but do not serve as Major Professors and do not devote as much time to the Program. Contributing faculty may teach courses and/or provide practicum supervision, but they do not serve as Major Professors nor do they have responsibility for developing and enforcing Program requirements and policies. Following are the names, contact information, and brief bios for Program Faculty.

### Core Faculty & Associated Faculty

**Tyler L. Renshaw, PhD, NCSP**

*tyler.renshaw@usu.edu*

Dr. Renshaw is the Program Director, an Assistant Professor, a credentialed school psychologist (Utah), a licensed Psychology Resident (Utah), and a member of the core Program faculty (100% FTE). He holds a PhD in Counseling, Clinical, & School Psychology (2011) from the University of California, Santa Barbara. His expertise and research interests are in the areas of school mental health services, mindfulness-based interventions, and brief behavior rating scales.

**Maryellen McClain Verdoes, PhD, LP**

*maryellen.mcclainverdoes@usu.edu*

Dr. McClain Verdoes is an Assistant Professor, a licensed Psychologist (Utah), and a member of the core Program faculty (100% FTE). She holds a PhD in School Psychology (2015) from Indiana University. Her expertise and research interests are in the area of autism spectrum disorder and related neurodevelopmental disabilities. Within this area she is particularly interested in culturally responsive evidence-based assessment and identification, interprofessional collaboration, as well as professional development and training.

**Gregory L. Callan, PhD, LP**

*greg.callan@usu.edu*

Dr. Callan is an Assistant Professor, a licensed Psychologist (Indiana), and a member of the core Program faculty (100% FTE). He holds a PhD in School Psychology (2014) from the University of Wisconsin, Milwaukee. His expertise and research interests are in the areas of self-regulated learning and school-based interventions.

**Gretchen Gimpel Peacock, PhD, LP**

*gretchen.peacock@usu.edu*

Dr. Peacock is a Professor, a licensed Psychologist (Utah), and an associated member of the Program faculty (10% FTE). She holds a PhD in School Psychology (1995) from the University of South Carolina. Her expertise and research interests are in the areas of parent training and behavioral interventions.
Further information regarding the core faculty’s training background and expertise can be found on the Psychology Department’s website containing faculty bios and links to curriculum vitae: http://psychology.usu.edu/people/department-faculty/

Key Adjunct Faculty

Marietta A. Veeder, PhD, LP
marietta.veeder@usu.edu
Dr. Veeder is an adjunct assistant professor, a licensed psychologist, and a practicum supervisor for the Program. She holds a doctoral degree in Clinical, Counseling, & School Psychology (2007) from Utah State University. She is currently a full-time practicing School Psychologist in the Box Elder School District in Utah.

Megan A. Heyborne, PhD, NCSP, LP
maheyborne@gmail.com
Dr. Heyborne is an adjunct instructor, a credential school psychologist, a licensed psychologist, and a practicum supervisor for the Program. She holds a doctoral degree in School Psychology (2015) from Indiana University. She is currently a full-time practicing School Psychologist in the Granite School District in Utah.

Joe Cotrell, EdS
joe.cottrell@ccsdut.org
Mr. Cotrell is an adjunct instructor, a credentialed school psychologist, and a practicum supervisor for the Program. He holds an EdS degree in School Psychology (2017) from Utah State University. He is currently a full-time practicing School Psychologist in the Cache County School District in Utah.

In addition to the key adjunct faculty listed above, various other faculty contribute to the success of the Program by teaching required courses and providing supervision for practicum experiences. Most contributing faculty have positions as core faculty in other programs sponsored by the Department of Psychology at USU. Others have full-time positions in other departments at USU or as school psychologists working in community settings. The constellation and functions of contributing faculty may shift on a yearly basis.

[Return to Table of Contents]
VI. Admissions

The Program admits new graduate students yearly. Following are key policies and parameters governing Program admissions. Questions regarding the admissions requirements or process should be addressed directly to the Program Director via email.

Non-Discrimination & Diversity Notice

In its programs and activities, including in admissions and employment, Utah State University does not discriminate nor tolerate discrimination, including harassment, based on race, color, religion, sex, national origin, age, genetic information, sexual orientation, gender identity or expression, disability, status as a protected veteran, or any other status protected by University policy, Title IX, or any other federal, state, or local law.

The Program encourages applications from individuals with diverse backgrounds and seeks to cultivate an inclusive and equitable training environment that supports cultural diversity and promotes anti-racism and social justice. Program faculty are responsible for ensuring the admissions process is non-discriminatory and adheres to University policy (stated above). Applicants with disabilities must be able to complete Program requirements and related professional functions with reasonable accommodations.

Basic Admissions Criteria

The Program’s admissions requirements align with the general admissions requirements for USU’s School of Graduate Studies (see https://gradschool.usu.edu/apply/). Specifically, prospective students are expected to meet the following basic criteria:

- Hold a bachelor’s degree by the time of matriculating into the Program
- Have at least a 3.0 GPA for the last 60 semester or 90 quarter credits
- Score at or above the 40th percentile on the Quantitative and Verbal sections of the Graduate Record Examination (GRE)
- Provide three letters of recommendation
- Submit a statement of purpose that outlines interests and fit with the Program

Exceptions are sometimes made for applicants who do not meet one of the above criteria. All prospective students interested in applying to the Program are encouraged to do so, even if they do not meet one of the above requirements.

Additional Admissions Factors

In addition to the School of Graduate Studies’ basic requirements, the Program faculty also consider the following factors in admissions decisions:

- A substantial background in psychology
• Well-articulated research interests and career goals
• Goodness-of-fit of research interests with particular faculty’s interests
• Prior research experience (e.g., lab work, scholarly writing, presenting)
• Prior applied or clinical experience (e.g., teaching, counseling, assessing)
• Prior graduate training (in school psychology or related fields)
• Effective communication and interpersonal skills

Prerequisite Courses for Admission

There are no standard prerequisite courses, yet prospective students are expected to have a “substantial background in psychology.” A substantial background is generally interpreted as prior coursework in four areas: (a) general psychology, (b) research methods in the behavioral sciences, (c) statistics and data analysis, and (d) applied psychology. Such coursework is typically evidenced by an undergraduate major or minor in Psychology. It may also be evidenced by taking four-to-five elective courses (outside the confines of a major or minor) within the field of psychology. In rare circumstances, students with other exceptional qualifications may be admitted into the Program without a substantial background in psychology. However, such students may be required to take additional, preparatory coursework in psychology at their own expense (e.g., online or on-campus as a non-matriculated student) prior to starting the Program.

Admissions Process

Applications to the Program are due by December 1 of each year. The Program faculty review applications in December–January and invite promising candidates to attend an on-campus interview day in February. The interview experience provides prospective students the opportunity to meet with all available Program faculty and current graduate students. The faculty typically convene to make admissions decisions within two weeks following interview day. Admissions decisions are based solely on the School of Graduate Studies’ criteria and Program factors (stated above).

Admissions offers are extended by faculty who are interested in serving as students’ Major Professors. Prior to extending offers, all admissions decisions are approved by the full Program faculty as well as by the School of Graduate Studies. Given the intensive nature of a Major Professor’s responsibilities to a student, Program faculty are highly selective regarding the applicants they choose to admit and mentor. The number of new students admitted per faculty member range from 0–2 per year. Thus, many well-qualified applicants do not ultimately receive admissions offers.
VII. Model & Philosophy

The School Psychology EdS Program’s model and philosophy provides the conceptual foundation from which the Program’s training aims and competencies are derived. Following is the definitive statement of the Program’s model and philosophy.

**Program Model**

The Program provides training in the scientific and practical foundations of the profession of school psychology. The Program is selective, intensive, and collegial by design. The Program is selective, intensive, and collegial by design. Graduate students are admitted into the lab of a particular Major Professor, who functions as the student’s primary advisor and mentor. Program Faculty have a strong interest in preparing students who are capable of advancing the field as practitioners who are also effective consumers and producers of research. Program content and experiences are structured to align with NASP’s Standards for Graduate Preparation of School Psychologists (2020). Graduates of the Program will be prepared to pursue careers as practitioners in schools and related educational settings.

**Program Philosophy**

The Program is grounded in four core values that, taken together, constitute the program philosophy of “best-practice” school psychology:

1. Science-based practice
2. Ethically-sound practice
3. Legally-compliant practice
4. Culturally-informed practice

**Science-based practice.** School psychology is a subfield of applied psychology that is derived from the scientific foundations of the broader disciplines of psychology and education. The overarching structure of the program adheres to a scientist–practitioner training model. The program aspires to train graduates with the necessary competencies for:

- Understanding and critically consuming the scientific literature that guides the practice of school psychology
- Effectively applying the science-based theories, principles, and techniques that comprise contemporary “best-practice” in school psychology
- Transmitting and ensuring quality-control of science-based practice by training, collaborating with, and supervising other school psychologists and related professionals

**Ethically-sound practice.** School psychologists use science-based practice for the sole purpose of bettering the lives of the youth, caregivers, schools, and communities they serve. The practice of school psychology is therefore an ethical endeavor. The program aspires to train graduates with the necessary competencies for:
• Understanding and applying ethical principles and guidelines that inform the regular conduct of scientific research and practice of school psychology
• Identifying and effectively resolving ethical dilemmas encountered in the regular conduct of scientific research and practice of school psychology
• Transmitting and regulating ethically-sound research and practice by training, collaborating with, and supervising other school psychologists and related professionals

**Legally-compliant practice.** The practice of school psychology is governed by various legal parameters, including federal and state statutes, regulations, and common law. Although the law sometimes accords with science-based and ethically-sound practice, it is not intended to function as a comprehensive guide for best-practice or ethical behavior. The program aspires to train graduates with the necessary competencies for:

• Understanding and acting in compliance with the laws that govern the practice of school psychology
• Identifying and effectively resolving conflicts among legal, ethical, and scientific concerns related to the practice of school psychology
• Transmitting and regulating legally-compliant practice by training, collaborating with, and supervising other school psychologists and educational professionals

**Culturally-informed practice.** School psychologists strive to provide effective services to all youth, caregivers, schools, and communities they serve. Excellence in service delivery requires the capacity to work competently with people from diverse backgrounds, including (but not limited to) diverse ethnic, economic, gender identity, sexual orientation, disability, and religious backgrounds. The program aspires to train graduates with the necessary competencies for:

• Understanding one’s own cultural heritage and personal history, and how this heritage and history affects interactions within clients in the practice of school psychology
• Understanding clients’ cultural heritage and history, and how to design and implement culturally-informed practices that are responsive to this heritage and history
• Identifying and effectively resolving conflicts among one’s own cultural heritage and personal history and clients’ cultural heritage and history
• Transmitting and regulating culturally-informed practice by training, collaborating with, and supervising other school psychologists and related professionals

[Return to Table of Contents]
VIII. Training Goals & Objectives

The Program model and philosophy are further operationalized into several training goals and objectives, which are outlined below. These training goals and objectives are intended to provide comprehensive coverage of the 10 domains of school psychology practice outlined in NASP’s Standards for Graduate Preparation of School Psychologists (2020):

1. Data-based decision making
2. Consultation and collaboration
3. Academic interventions and instructional supports
4. Mental and behavioral health services and interventions
5. School-wide practices to promote learning
6. Services to promote safe and supportive schools
7. Family, school, and community collaboration
8. Equitable practices for diverse student populations
9. Research and evidence-based practice
10. Legal, ethical, and professional practice

Following are the Program’s training goals and associated objectives.

**Goal 1.** Program graduates will be effective problem-solving change agents who use data-based decision making for assessment and intervention with diverse student populations.

**Goal 1: Objective A.** Program graduates will demonstrate the ability to make data-based decisions regarding individual students.

**Goal 1: Objective B.** Program graduates will demonstrate the ability to make data-based decisions regarding programmatic issues.

**Goal 2.** Program graduates will obtain a broad understanding of the educational system, the family system, and the practice of school psychology; they will understand how to work effectively within these systems with diverse student populations.

**Goal 2: Objective A.** Program graduates will demonstrate knowledge of schools, their climates, their policies, and their procedures, including knowledge of general and special education services and related laws governing these services.

**Goal 2: Objective B.** Program graduates will demonstrate knowledge of school psychology as an area of practice, including the history of school psychology, ethical issues in the field, and the roles and functions of school psychologists.

**Goal 2: Objective C.** Program graduates will demonstrate knowledge of family systems and school systems and understand how to work collaboratively with families, schools, and communities.
Goal 2: Objective D. Program graduates will demonstrate the necessary knowledge and skills to practice behavioral consultation with teachers and parents.

Goal 2: Objective E. Program graduates will demonstrate the ability to use technology relevant to their work.

Goal 3. Program graduates will obtain the skills necessary to promote the behavioral, emotional, and social well-being of children and their families with diverse backgrounds and within the context of a problem-solving modeling of school psychology.

Goal 3: Objective A. Program graduates will demonstrate knowledge of psychopathology and developmental course and factors that influence human wellbeing.

Goal 3: Objective B. Program graduates will demonstrate familiarity with techniques used to assess, monitor, and evaluate sources of risk as well as social, emotional, and behavioral difficulties within the entire school population, including functional assessment methods.

Goal 3: Objective C. Program graduates will demonstrate the knowledge and skills necessary to implement interventions and prevention plans at the individual, class-, school-, and district-wide levels to address common social, emotional, and behavioral needs and concerns.

Goal 4. Program graduates will obtain the necessary knowledge and skills to promote positive academic growth for all children within the context of a collaborative, problem-solving model of school psychology.

Goal 4: Objective A. Program graduates will demonstrate familiarity with techniques used to assess for academic difficulties and to monitor and evaluate academic progress within the school population.

Goal 4: Objective B. Program graduates will demonstrate the ability to develop interventions (in collaboration with other school personnel) for individual students with academic skill difficulties and at the class-, school-, and district-wide levels to improve or maintain positive academic outcomes.

Goal 5. Program graduates will value diversity, demonstrate respect for all cultures, and strive towards culturally-competent practices.

Goal 5: Objective A. Program graduates will demonstrate an awareness and knowledge of issues of cultural diversity.

Goal 5: Objective B. Program graduates will demonstrate skills and ability to take steps to work effectively with students from diverse cultural backgrounds.
Goal 5: Objective C. Program graduates will demonstrate cultural sensitivity in all professional activities.

Goal 6. Program graduates will obtain a strong background in research methods and understand how to apply this knowledge within the school context.

Goal 6: Objective A. Program graduates will demonstrate knowledge of research methods, including both group and single-subject designs.

Goal 6: Objective B. Program graduates will demonstrate the knowledge and skills necessary to apply basic statistical processes in professional situations, including the ability to translate statistical knowledge into practice and to use statistics for the purpose of program evaluation.

Goal 6: Objective C. Program graduates will understand how to engage in applied research to monitor the progress of the schools, classes, groups, and individuals to whom they provide services.

[Return to Table of Contents]
IX. Major Professors

Students are admitted into the Program to work in the lab of a specific Major Professor. When extending admissions offers, Major Professor are committing to serve as students’ primary advisors and mentors throughout students’ tenure in the Program. Following are key parameters related to Major Professors’ relationships with students.

Basic Responsibilities of Major Professors

Major Professors’ basic responsibilities to students are as follows:

- Provide an ongoing research lab experience that enculturates students into an area of scientific study related to school psychology
- Serve as the chairperson for students’ Graduate Supervisory Committee
- Advise students regarding the program of study for the master’s degree
- Mentor students through their research lab experience
- Advise students regarding the program of study for the doctoral degree
- Advise students regarding appropriate practicum placements and extracurricular activities in relation to students’ internship and career goals
- Advise students regarding appropriate internship placements
- Advise students regarding career trajectories in school psychology and related fields
- Serve as the “first stop” among Program faculty for resolving students’ concerns regarding Program policies, scheduling conflicts, personal or interpersonal problems, coursework troubles, etc.

Major Professors and Student Progress

Major Professors are not ultimately liable in the event that students fail to meet the criteria or deadlines related to Program requirements. Meeting deadlines and fulfilling program requirements are fundamentally students’ responsibility, and no one else’s. Students should therefore take initiative to seek their Major Professors’ advisement and feedback to ensure they make satisfactory progress in the Program.

Communicating with Major Professors

Following are key guidelines for students to consider when communicating with Major Professors:

- Major Professors strive to respond to students’ communications within 48 hours
- Emergencies should be communicated to Major Professors as soon as possible
- Major Professors should be given at least 2 weeks to review and provide feedback on students’ major project drafts (e.g., research lab papers)
- Major Professors may be less consistently available during summer months, depending on their employment situation and personal preferences
If students have difficulty communicating effectively with their Major Professor, they should first seek to resolve this concern by discussing the issue directly with the professor. If this issue remains unresolved, students should bring their concern to the (1) Program Director and (2) Department Head (in that order).

**Changing Major Professor Assignments**

It is expected that initial Major Professor assignments will persist throughout a student’s tenure in the Program; however, a change in Major Professor is possible. Such changes can be initiated by the student or the Major Professor without repercussions. Once the original advising relationship is terminated, it is students’ responsibility to secure a new Major Professor from available Program faculty. New Major Professor assignments cannot be compelled and must be agreeable to both parties. If students are unsuccessful in securing a new Major Professor within 6 months of terminating the original advising relationship, then students may be recommended for dismissal from the Program.
X. Coursework

The School Psychology EdS Program provides a coherent and comprehensive curriculum to accomplish the program’s training goals and objectives. A major component of the curriculum is coursework that ensures students acquire and demonstrate competency in all of the major training domains outlined by NASP for the practice of school psychology. Following are key policies and parameters related to Program coursework.

**Ideal Coursework Sequence**

Following is the ideal sequence for completing Program coursework. It is recommended that students adhere to this coursework sequence as closely as possible; however, the sequence may be adjusted for students entering the Program with prior graduate-level coursework in psychology, if they receive coursework waivers (see below for policies on these points). Deviations from or changes to this sequence should only be made after students consult with and gain the approval of their Major Professors.

**Note.** The ideal coursework sequence below also includes registration codes and semester credit hours for lab-based research activities, practica, and internship, which are considered separate curriculum elements and are described in detail in other sections of the Handbook. This information is included in this sequence to aid students in registering for the appropriate credit hours during each semester of the Program. These other credit hours are marked with superscripts “R” (research), “P” (practicum), and “I” (internship) to distinguish them from the graduate-level seminars that constitute the coursework element.

Coursework Connections with Training Goals/Objectives & NASP Practice Domains

Following is a table presenting the coursework connections with Program training goals and objectives as well as with NASP’s 10 practice domains of school psychology. Taken together, the coursework provides comprehensive coverage for all NASP training standards. The numerical codes representing the Program’s training goals/objectives and NASP’s domains of practice can be located in the Training Goals and Objectives section of the Handbook (see above).

Coursework for MEd Degree

The Program requires that students complete an MEd en route to completing the EdS in School Psychology. The recommended coursework sequence for the MEd is outlined below and is typically completed within the first three semesters. The MEd is not intended to stand alone as preparation for professional practice as a school psychologist. Rather, it is intended as a foundation and stepping-stone toward that end. Students should be aware that the same coursework cannot be used for more than one degree, and that some coursework completed in the first three semesters counts toward the EdS sequence, not the MEd sequence. Students are eligible to receive the MEd as soon as they have successfully completed all coursework requirements.

Coursework for EdS Degree

The Program’s recommended coursework sequence for the EdS in School Psychology is outlined below and is typically completed within three semesters post-MEd. Students should be aware that some EdS coursework is completed in the first two years of the program. Students are eligible to receive the EdS as soon as they have (1) completed the requirements for the MEd degree, (2) completed all coursework requirements for the EdS, (3) completed their research lab experience (independent research credits), and (4) completed an appropriate internship in school psychology.

Degree Completion Deadlines & Checklists

The School of Graduate Studies provides degree completion deadlines and checklists, which are updated on a semester-by-semester basis. Students are responsible for familiarizing themselves with the deadlines and checklists that are relevant to their current standing in the Program. These materials can be located at the following website: [https://gradschool.usu.edu/degree-completion/](https://gradschool.usu.edu/degree-completion/)

Transfer Credit

Transfer credit is defined as graduate-level credit earned by a student at another accredited institution with a graduate program. Transfer credits cannot have been used for another degree and are limited to no more than 12 semester credits. Only credit earned with a “B” or better grade within the past eight years will be considered. “P” (i.e., passing) grades are not acceptable for transfer purposes. Transfer credit will only be approved if the content of the course is substantively equivalent to the content of a course within the Program curriculum. A review of course syllabi and/or products may be required to determine the equivalency of transfer courses. Requests for transfer credit must be approved by (1) the Major Professor, (2) the full Program faculty, and (3) the Department Head (in that order).
Course Waivers

Course waivers or exemptions may be provided for students who have accrued graduate-level coursework or other training that is substantively equivalent to that required by the Program curriculum. A review of course syllabi and/or products may be required to determine the equivalency of coursework or other training. The receipt of a course waiver must be clearly documented in a memo placed in students’ Department files. Requests for course waivers must be approved by (1) the Major Professor and (2) the full Program faculty (in that order).

Coursework Evaluation

The School of Graduate Studies requires that students have a minimum GPA of 3.0 in order to remain in good standing with the University. Students are expected to earn a minimum grade of “B” in all coursework. Students receiving a “C” grade or lower are expected to either (1) repeat the course or (2) demonstrate mastery in the respective content area by another means that has been approved by the Program faculty. If students earn a “D” or “F” grade in any course, the Program faculty will meet to determine the appropriate course of action. Possible outcomes of receiving a “D” or “F” grade may include academic probation from the School of Graduate Studies, a remediation plan with the Program faculty, or dismissal from the Program (see the Additional Policies section for more information on these disciplinary measures). Earning two or more “C” grades may likewise result in probation, remediation, or dismissal.

[Return to Table of Contents]
XI. Practicum

This section outlines the curriculum’s practicum requirements that are designed to provide students with applied training opportunities to (1) use and refine core knowledge and skills acquired in didactic courses as well as to (2) learn additional knowledge and skills not offered in didactic coursework. All practicum is supervised by an appropriately credentialed professional who is charged with ensuring quality-control of students’ services and facilitating students’ professional growth. Following are key policies and parameters relevant to Program practicum.

**Developmental Model**

Practicum is structured according to a developmental model. During Year 1 in the Program, students engage in preliminary practicum experiences, which are intended to provide exposure to some of the key roles and functions of school psychologists. Year 1 practicum activities are typically limited in nature and embedded within the context of first-year coursework (e.g., Introduction to School Psychology, Legal and Ethical Issues in Schools) or research lab experiences that are supervised by Program faculty. In Year 2, students enroll in a two-semester school-based practicum sequence, wherein they are assigned to work with a practicing school psychologist for one day per week. Year 2 practicum is intended to provide students with broad exposure to the assessment, intervention, and consultation functions relevant to school psychology. Some Year-2 students may also have opportunities for additional school-based practicum that is structured as graduate assistantships and supervised by Program faculty. In Year 3, students progress to the most intensive level of practical training, where they obtain positions as full-time interns working under the supervision of a practicing school psychologist.

Throughout all years in the Program, students may obtain practicum experiences within the context of their Major Professor’s research lab—to the degree that research activities align with direct or indirect practice. The nature and extent of these additional practicum opportunities vary as a function of Major Professors’ expertise and current projects.

**Student License for School-Based Work**

A student practice license—called the Associate Educator License—is required to work in Utah schools as a practicum student or intern. State law requires that each applicant for a Utah Educator License must satisfactorily complete a background check. This step is for student safety as well as for supporting agreements between the issuing institution and the district of placement. A temporary license is issued only to the practicum student or intern who is assigned to elementary, middle, or secondary schools under the Cooperating Institution as part of their professional preparation. See Utah State Board of Education Rule 277-509-3 for more information on this issue: [https://rules.utah.gov/publicat/code/r277/r277-509.htm](https://rules.utah.gov/publicat/code/r277/r277-509.htm).

Obtaining a student practice license can take up to 10 weeks. All students in the Program are expected to obtain their student educator license through the Utah State Board of Education by
the end of the second semester in the program. The application for this credential can be initiated at the following website: https://secure.utah.gov/elr/welcome.html.

Before participating in the Year 2 school-based practicum sequence, students must provide documentation to the Program Director that they have obtained an Associate Educator License. A copy of this temporary practice license will be kept in students’ Department files. Failure to obtain a temporary practice license prior to beginning the Year 2 school-based practicum sequence will jeopardize students’ standing in the Program. If a student is denied a temporary license due to problems resulting from the background check that cannot be resolved, the student will be unable to participate in the curriculum and will be dismissed from the Program.

All students must complete the background check process requested by the Utah State Board of Education (USBE), as the USBE will not accept copies of background checks completed elsewhere. Students will be notified by email when their background check and application is completed by USBE. If students continue to work in Utah schools as a practicum student or intern after possessing a temporary practice license for 3 years, they will need to complete another background check and renew this temporary license. Students should also be aware that some school districts have extra procedures for vetting practicum students, which may require additional applications and background checks beyond those mandated by the USBE.

**Hours Tracking**

Students are responsible for consistently and accurately tracking their practicum hours across all placements. During Year 1 and Year 2, students should log and track hours using an excel spreadsheet provided in the Introduction to School Psychology course. During internship, students should log and track hours using an excel spreadsheet provided by the Program Director. Students should be aware that practicum and internship supervisors may periodically review and approve students’ hours. Questions regarding how to log specific types of practicum hours should be directed to practicum supervisors or Major Professors.

**Placement Decisions**

Practicum placement decisions are made by the Program faculty, not by students. Year 1 practicum opportunities will be arranged by faculty teaching courses with applied requirements. Practicum placements for the Year-2 School Psychology Practicum sequence will be arranged in local school districts by the faculty member who supervises this sequence. Across all years, practicum experiences that occur as part of research lab projects will be arranged by the Major Professors of those labs.

Students are encouraged to consult with their Major Professors regarding which practicum placements would be optimal in relation to their internship and career goals. Faculty who are responsible for practicum placement decisions may solicit student input regarding placement preferences, but there is no guarantee that these preferences can or will be accommodated. Ultimately, faculty make practicum placement decisions that account for the best interests of
students, school systems, and the broader Program. Under no circumstances should students take initiative to arrange practicum placements outside of the official Program channels described above.

Students should be aware that traveling to practicum placements may sometimes require a substantial commute—up to 1.5 hours driving, each way. This commute time does not count toward practicum hours, and the resulting mileage is typically not reimbursed by local school districts or other placements.

**Supervisor Evaluation**

Students performance in practicum is evaluated by their primary supervisor at the conclusion of each semester that they complete a formal practicum experience. Evaluations corresponding with the school-based practicum in Year 2 are conducted using the School-Based Practicum & Internship Evaluation form (see Appendix B). Minor practicum experiences that are arranged as part of research lab projects do not require the completion of supervisor evaluations on a semester-by-semester basis. When enrolled in the Year-2 Practicum in School Psychology Sequence (PSY 6380), the faculty member supervising that sequence will solicit evaluations from the school-site supervisors.
XII. Research Lab Experience

In addition to didactic coursework and practicum, the Program curriculum includes an intensive research lab experience requirement. Research lab is a formative environment for training school psychologists who can understand, apply, advance, and improve the scientific foundations of the field. The purpose of this requirement is to help students develop proficiency in basic and applied scientific skills for effectively consuming and producing research that informs the practice of school psychology. Following are the policies and parameters governing the research lab experience requirement.

General Criteria

- Prior to participating in research lab, students must first complete the CITI training on human subjects and ethics in research, which is accessible via the University’s Institutional Review Board website: https://research.usu.edu/irb/training/
- Students must complete at least 6 hours per week of research activities, for at least 15 weeks during each semester, resulting in at least 90 research hours per semester
- Research lab activities must be completed during both the Fall and Spring semesters, during Years 1 and 2 in the Program, resulting in a grand total of at least 360 research hours during the student’s tenure in the Program
- Lab activities must address skills related to both consuming and producing research. Moreover, lab activities should require multiple activities to promote development of strong research skills.
- Nature of specific research activities is to be determined by the student’s Major Professor and is dependent on current lab projects and the constellation of other students involved in the lab
- Students must track and document their research hours using a formal protocol (e.g., excel spreadsheet or online app) approved by their Major Professor and submit this document for the MP’s review at least once per semester (or as often as the MP prefers)

Evaluation Criteria

- Students must complete the self-report components of the Research Lab Experience Report & Evaluation (see Appendix C) and submit this form to their Major Professor at the end of each Fall and Spring semester during Years 1 and 2
- Students must receive marks of “Satisfactory” or better for 80% (4/5) of the evaluation domains included on the Research Lab Report & Evaluation (see Appendix C) across all four semesters of involvement in the research lab experience

Timeline for Completion

- Must successfully complete requirement prior to starting internship
XIII. School Psychology Praxis® Exam

Following the completion of all Program coursework (both MEd and EdS sequences) and the successful completion of the Year 2 practicum sequence, students are eligible to take the School Psychology Praxis® Exam. This exam serves as a key mechanism for evaluating the knowledge and skills students have acquired related to the practice of school psychology. Following completion of the exam, students are required to send an electronic copy of their official test-taker score report to the Program Director. A copy of this documentation (see Appendix X for an example) will be kept in the student’s Department file. Below are the policies and parameters governing the Praxis requirement.

General Criteria

- Must take the School Psychology Praxis® Exam
- Basic information about the exam is located at the following website: https://www.ets.org/praxis/nasp/requirements
- Information related to preparing for the exam is located at the following website: https://www.ets.org/praxis/prepare/materials/5402/

Evaluation Criteria

- Must receive a “qualifying” score on the exam (i.e., ≥ 147)

Timeline for Completion

- Recommend taking any time after completing Year 2 of the Program
- Must be completed prior to conferral of EdS degree
XIV. Internship

The school-based internship is considered the capstone practicum experience for the School Psychology EdS Program. Internship is typically a paid experience and occurs during Year 3 of the Program. Following are key Program policies and parameters relevant to the school-based internship experience.

General Parameters

Students are expected to apply for school-based internships wherein they (1) will have opportunities to engage in broad school psychological service delivery and (2) will be supervised by an appropriately credentialed school psychologist. Prior to beginning the internship, supervisors must be credentialed to practice school psychology for at least 3 years and be employed at the current practice site for at least 1 year. Students must take initiative to identify appropriate internship sites/supervisors and submit applications in a timely manner. Students should be aware that school districts in Utah (and other states) may begin accepting internship applications as early as February of each year.

Internship Eligibility

To be eligible to apply for internship, students must have successfully completed the following requirements:

- All MEd coursework
- Majority of EdS coursework (sans courses in progress)
- Be on-track to accrue 350 total hours in practicum prior to beginning internship
- Rated “Emerging” (or higher) by their Year 2 practicum supervisor across all Global Competencies outlined on the School-Based Practicum & Internship Evaluation (see Appendix B)

Internship Credits

Students must enroll in PSY 6950: School Psychology Internship, which is a 3-credit course, during the Fall and Spring semesters of the internship year. Students who are receiving student loans during internship year should be aware that lending agencies may have course credit requirements that are complicated by this situation. Students are encouraged to check with their lending agencies to understand the requirements for continued loan deferment.

Internship Grades

Internship course grades are based on the evaluations and feedback received from internship supervisors. Although the Program Director will solicit evaluations from supervisors at the end of each semester, it is ultimately students’ responsibility to ensure that internship supervisors complete the evaluations and return them to the Program Director in a timely manner. If the
Program Director has received no evaluation or feedback from internship supervisors, then students will receive an “I” (incomplete) grade for that semester. To get the “I” removed from a transcript, students must request that internship supervisors complete and return the formal evaluation to the Program Director.

**Internship Hours**

The internship must result in a minimum of 1200 total hours, and all internship hours must be logged using an Excel spreadsheet provided by the Program Director. It is recommended that interns spend at least 25% of their time providing direct psychological services to clients, caregivers of clients, and/or professionals who provide services to clients (e.g., teachers and other mental health professionals) in schools. Thus, a minimum of 300 direct contact hours should be accrued during the internship year. Although these minimums are generally sufficient for credentialing as a school psychologist in most states, they may not be consistent across states. Students are therefore encouraged to consult the relevant credentialing requirements for states within which they wish to work post-graduation.

**Internship Timetable**

Full-time internships are completed within the scope of a single school-year. In rare circumstances when a part-time internship is completed, the internship timetable may be extended to no more than two school-years. Part-time internships are typically the result of extenuating circumstances and must be approved by (1) students’ Major Professors, (2) the Program Director, and (3) the full Program faculty (in that order).

**Program Involvement**

As mentioned above, students are responsible for finding, applying for, and obtaining an appropriate school-based internship placement. After securing an internship offer, the Program Director assists in coordinating and facilitating the internship experience by doing the following:

- Ensuring that the intern and supervisor review and sign the Intern Agreement
- Conducting a formal check-in with the intern and supervisor in the Fall and Spring semesters of the internship year
- Reviewing the supervisor’s intern evaluations (mid and final) and providing the student with constructive feedback
- Resolving any concerns that arise between the student and supervisor throughout the course of the internship year

**Internship Portfolio**

Students are required to compile an internship portfolio, which consists of a variety of work samples that demonstrate students’ competencies related to Program training goals and
objectives. Criteria for developing and evaluating this portfolio are located in an external document entitled “Guidelines for Practicum and Internship Portfolio.”
XV. Additional Policies

The majority of Program policies are outlined in earlier sections of the Handbook that are devoted to specific aspects of the Program’s curriculum. Following are additional policies governing administration of the Program, which were not already noted (or were only partially noted) in earlier sections of the Handbook. Students should resolve questions regarding these additional Program policies should by (1) referencing the Handbook, (2) consulting their Major Professors, and (3) consulting the Program Director (in that order).

Non-Discrimination Notice

In its programs and activities, including in admissions and employment, Utah State University does not discriminate or tolerate discrimination, including harassment, based on race, color, religion, sex, national origin, age, genetic information, sexual orientation, gender identity or expression, disability, status as a protected veteran, or any other status protected by University policy, Title IX, or any other federal, state, or local law. The following individuals have been designated to handle inquiries regarding the application of Title IX and its implementing regulations and/or USU’s non-discrimination policies:

Executive Director of the Office of Equity
Alison Adams-Perlac
alison.adams-perlac@usu.edu
Old Main Rm. 161
435-797-1266

Title IX Coordinator
Hilary Renshaw
hilary.renshaw@usu.edu
Old Main Rm. 161
435-797-1266

For further information regarding non-discrimination, please visit https://equity.usu.edu/, or contact:

U.S. Department of Education
Office of Assistant Secretary for Civil Rights
800-421-3481
OCR@ed.gov

U.S. Department of Education
Denver Regional Office
303-844-5695
OCR.Denver@ed.gov
**Academic Freedom**

Academic freedom is the right to teach, study, discuss, investigate, discover, create, and publish freely. Academic freedom protects the rights of faculty members in teaching and of students in learning. Academic freedom does not, however, give students the right to change Program requirements or policies. The University’s policy on academic freedom can be located at the following website: [https://www.usu.edu/policies/403/](https://www.usu.edu/policies/403/).

**Diversity/Inclusion Professional Development**

Students are expected to participate in some form of professional development related to diversity/inclusion at least once during every semester they are enrolled in the Program. Each professional development experience must be at least one hour in duration and must occur outside the bounds of regular coursework or practica experiences. These experiences are self-initiated by students and can be accomplished through a variety of formats, including webinars sponsored by professional organizations, on-campus trainings and events, local speakers arranged by the student cohort, or cultural immersion experiences within community settings. Students should maintain documentation of these experiences and will be asked to report these experiences to their Major Professor during the annual student evaluation meeting held at the conclusion of each academic year.

**Graduate Assistantships**

The Program is a rigorous, full-time training experience that typically includes a paid graduate assistantship (i.e., teaching, research, or clinical position) for each semester that students are enrolled on-campus. Assistantships are a means of financial support that are coordinated by Program faculty and require 20 hours of work per week (0.50 FTE). Students must have a .50 FTE assistantship to be eligible for tuition awards. Any assistantship (or combination of assistantships) that exceeds 20 hours per week must be approved by (1) students’ Major Professors, (2) the Program Director, and (3) the Department Head (in that order). A form documenting this approval must be submitted to the School of Graduate Studies.

**Outside Employment**

Given the full-time and intensive nature of the Program, it is strongly recommended that students not maintain, seek, or obtain outside employment while enrolled in the Program. Extenuating circumstances that require outside employment should be discussed with and approved by students’ Major Professors.

**Progress Monitoring & Evaluation**

All students are monitored and evaluated on an ongoing basis by the Program faculty. The purpose of all monitoring and evaluation is to ensure that students succeed in meeting the Program’s training goals and objectives. All students will be provided with formal feedback.
from the Program faculty at the end of each academic year via the Specialist Student Annual Evaluation (see Appendix A). In Years 2–3, students will also be evaluated on a semester-by-semester basis by practicum and internship supervisors using the School-Based Practicum & Internship Evaluation (see Appendix B). More frequent monitoring or evaluation may be provided by Major Professors or other faculty on an as-needed basis. Students should be aware that failing to meet evaluation benchmarks may result in a Program remediation plan or dismissal from the Program (see below for more information on these disciplinary policies). Students should also be aware that records of all evaluations are kept in their student file, which is located in an online BOX folder maintained by the Department (see the “Student Records” policy, below).

**Psychological Services & Compensation**

It is illegal and unethical for students to identify, advertise, or offer services as a “school psychologist” until licensed as such by the appropriate state licensing body. It is also illegal and unethical for students to accept money from clients for any psychological services offered on a private basis while students are in training—except when permissible under other licenses or credentials held by students (e.g., Social Work). There is no legal or ethical conflict when students receive financial compensation from school-based assistantships that are arranged by Program faculty and deemed to be part of the Program curriculum. Students should be aware that ethical mandates require they clearly state their title, credentials, and level of training when providing services and otherwise representing themselves in professional situations (e.g., Student Name, MS in Psychology, School Psychology Intern).

**Ethical Behavior**

Students are expected to be familiar with and adhere to the professional ethics codes and principles proposed by NASP. Although some ethical mandates are aspirational, many standards are enforceable rules with substantial consequences (e.g., inability to obtain a professional credential). Ethical violations that occur within the context of the Program may result in a remediation plan (see below) or dismissal from the Program (see below for more information on these disciplinary policies).

**Remediation Plans**

Students who fail to make satisfactory progress in the Program or engage in unethical behavior related to the Program may be subject to a Program remediation plan. Remediation plans are carried out by at least two Program faculty, one of which must be the student’s Major Professor. The remediation plan must be based on a problem-solving model that includes the following processes:

1. Collecting and reviewing data to identify the nature of the students’ problems
2. Developing a plan with goals and actionable steps to remediate these problems
3. Monitoring and evaluating students’ response to the remediation plan
4. Clear documentation of processes 1–3

All remediations plans must be documented using the Program’s “Remediation Plan Documentation” form (see Appendix E). Students must be provided with appropriate opportunities and supports to benefit from the Program remediation plan. An inadequate response to the remediation plan may result in dismissal from the Program (see below for more information on this disciplinary policy). Students should also be aware that records of remediation plans are kept in student files, which are located in an online BOX folder maintained by the Department (see the “Student Records” policy, below). All students are protected in this situation by University policies that govern students’ rights, appeals, and due processes. Students who feel they have been unfairly treated or discriminated against should consult the Program’s policy for “Complaints and Grievances” (see below) as well as the University regulations for student appeals. Information regarding student rights and appeals is be located at the following website: https://studentconduct.usu.edu/studentcode/article7.

Dismissal from the Program

If students are considered for potential dismissal from the Program, the following protocol must be adhered to:

1. The Program faculty meet to determine that the dismissal recommendation is grounded in a rationale that is clearly outlined in Program policy (as stated in the Handbook) and/or University policy (as stated elsewhere)
2. The Program faculty vote on the recommendation to dismiss students from the Program
3. If the vote is unanimously in favor of dismissal, the Program Director forwards the dismissal recommendation to the entire Department Faculty
4. The Department Faculty vote on the recommendation to dismiss the student from the Program
5. If a simple majority of the voting faculty uphold the dismissal decision, the Department Head forwards the dismissal recommendation to the Vice Provost of Graduate Studies
6. The Vice Provost of Graduate Studies makes a final, independent decision regarding the students’ dismissal
7. If dismissed from the Program, the student retains the right to appeal the decision
8. A memo regarding the upshot of the dismissal process must be created by the Program Director and placed in the student’s file, which is located in an online BOX folder maintained by the Department (see the “Student Records” policy, below).

All students are protected in this situation by University policies that govern students’ rights, appeals, and due processes. Students who feel they have been unfairly treated or discriminated against should consult the Program’s policy for “Complaints and Grievances” (see below) as well as the University regulations for student appeals. Information regarding student rights and appeals is be located at the following website: https://studentconduct.usu.edu/studentcode/article7.
Access to USU Student Services

The University offers abundant student services, including academic, physical health, mental health, disability, financial, employment, legal, and social supports. Students are entitled to access all of the services provided by the University during their tenure in the Program. A complete list of these services and information regarding how to access them can be found at the following website: https://studentaffairs.usu.edu/

Students with Disabilities

Students with disabilities must be able to complete Program requirements with reasonable accommodations. The Americans with Disabilities Act (ADA) defines reasonable accommodations as the provision of services, such as interpreters, note-takers, extended time on examinations, architectural access, program modification and other adjustments. Achieving reasonable accommodations for students with disabilities involves shared responsibility among students, faculty, and staff. Accommodations are determined on an individualized basis and are coordinated by the University’s Disability Resource Center. If students receive accommodations, a memo detailing these supports and their relation to Program requirements must be created by the Program Director and placed in the student’s file, which is located in an online BOX folder maintained by the Department (see the “Student Records” policy, below). More information regarding reasonable accommodations and the process by which these are obtained is available at the following website: https://www.usu.edu/drc/.

Attendance at Program Events

The Program sponsors and participates in several events throughout each academic year, some of which are mandatory and others of which are optional. All students are expected to attend “Program Meetings,” as these are the primary venue for conducting and communicating official Program business. Students are also expected to attend and participate in interview-day events (for prospective students or faculty) and Department colloquia, as these are essential Program functions. If students will miss a mandatory Program or Department meeting for any reason, it is their responsibility to (1) notify their Major Professors and (2) obtain notes from the meeting from peers. Attendance is non-mandatory for Program or Department events that are billed as socials and other unofficial gatherings.

Facilities and Administrative Support

The Department's research and clinical facilities may be used by students; however, students should follow all applicable scheduling guidelines. Research labs or other workspaces may be equipped with computers and printers for students’ use, yet these technologies are designated for university-related functions. Students should be aware that the Department does not provide letterhead, postage, or mailing supplies for personal use. If students in research labs need supplies to accomplish their work, they should consult their Major Professors or Lab Director regarding how to obtain these supplies.
The Department employs the following full-time support staff who are available to support students with administrative and clerical tasks on an as-needed basis:

- **Graduate Program Coordinator**, Krista Terrell, provides support related to admissions, course registration, and graduate school processes and paperwork.
- **Business Manager**, Cara Brewer, provides support related to accounting, budgets, and finances.
- **Business Assistant**, Brandee Spackman, provides support for financial transactions related to hiring, travel, start-up, and general lab and Program purchases.
- **Staff Assistant**, Hillary Fruge, provides support related to course scheduling, meeting scheduling, website presence and updates, and other general, as-needed clerical supports.

The College also provides as-needed, expert support for students in several other areas: (a) IT support through the Technology Services Center, (b) data analysis support through the Statistical Consulting Studio, (c) data management support through the Data Science & Discovery Unit, and (d) grant development and proposal support through the Office of Research Services. Students should consult with their Major Professor prior to approaching college-level administrative supports to determine if such supports are appropriate for the students’ needs.

### Student Representative

One specialist-level student serves as the student representative at Program and Department meetings. The student representative is elected by the Program’s student cohort according to a process that is self-determined by the cohort. The primary purpose of the student representative is to advocate for the interests of the student cohort as these relate to program requirements, structure, and administration. Representatives serve for 1 year and are responsible for representing the interests of all specialist-level students within the Program. Student representatives are encouraged to actively and regularly solicit feedback from their peers regarding Program functioning—and to present this feedback to Program faculty at designated meetings.

### Peer Mentors

All new students are assigned peer mentors prior to matriculating into the Program. Peer mentors are fellow doctoral students who have successfully completed at least one year in the Program. Peer mentors are expected to facilitate new students’ transition into the Program by answering questions and recommending resources during the first year. The matching of new students with peer mentors is the responsibility of the current student representative, working in consultation with the Program Director.

### Tuition Awards
Students from out-of-state are eligible for a tuition award that covers the out-of-state portion of tuition for classes on a student’s program of study. Students who are already residents of Utah are not eligible for tuition awards. Out-of-state tuition awards are only awarded to non-Utah residents during their first year in the program. After that, students must obtain Utah residency unless they are international students, in which case the out-of-state portion of tuition will continue to be covered. Out-of-state tuition awards are contingent on a student maintaining a 0.5 FTE assistantship throughout their tenure in the Program.

Financial Supports

Students in the Program are eligible to apply for several sources of internal funding that provide partial financial support for graduate training, including scholarships, research awards, and travel awards. These financial supports are sponsored by multiple entities within the University, including the School of Graduate Studies, the College, and the Department. Students are responsible for familiarizing themselves with the available internal options for financial supports. Students are also responsible for proper and timely completion of applications for these financial supports. Following are links to websites providing further information about available sources of internal funding for students:

- School of Graduate Studies: https://gradschool.usu.edu/tuition-financial-aid/
- College: https://cehs.usu.edu/academics/scholarships/index and https://cehs.usu.edu/research/resources/grad-student-research-award-opportunity
- Department: http://psychology.usu.edu/academics/scholarships and http://psychology.usu.edu/student-resources/travel-research-support

In addition to these internal sources of funding, students are encouraged to consult with their Major Professors regarding potential external sources of funding (i.e., those available from entities outside the University) that may provide partial financial support for graduate training.

Complaints & Grievances

Complaints involving other persons—including students, faculty, or staff—in the Program, Department, College, or University should be handled using the approach outlined in APA’s ethical code of conduct. First, students should seek to resolve the problem directly by communicating with the persons that are the source of the complaint. If this step does not resolve the problem, students should then consult their Major Professors, who may help facilitate a resolution. If a resolution is not obtained after this step, students should bring their concern to the Program Director, who will consult with the full Program faculty and the student to problem-solve the situation. In rare instances, it may be necessary to bring the complaint to the Department Head or the Vice Provost of Graduate Studies (in that order).

If a complaint is not resolved successfully (or to the satisfaction of all parties), then students and/or faculty should file a formal grievance report, using the Program’s “Grievance Report” form (see Appendix J). Students are also welcome to file a grievance report prior to attempting
to resolve their problem, if they would like to formalize their complaint with Program. A copy of this grievance report will be kept in the student’s file, which is located in an online BOX folder maintained by the Department (see the “Student Records” policy, below). All students are protected in the filing of grievances by University policies that govern students’ rights, appeals, and due process. The University’s regulations governing grievances can be found at the following website: https://studentconduct.usu.edu/studentcode/article7

If a complaint involves quid pro quo, hostile environment, sexual assault, relationship violence (dating and domestic violence), stalking, or another form of discrimination against a protected class (e.g., race, color, religion, sex, national origin, age, genetic information, sexual orientation, gender identity/expression, disability, or status as a protected veteran) then students can file a report with the Office of Equity at equity.usu.edu/report. The Executive Director and Title IX Coordinator in the Office of Equity are responsible for investigating and enforcing USU’s policies related to non-discrimination and sexual misconduct as well as for providing supportive measures for persons affected by misconduct or discrimination. Information about this reporting process and links to reporting forms are provided through the USU Office of Equity: https://equity.usu.edu. Resources for those who have been impacted by sexual misconduct can be found at sexualrespect.usu.edu.

Students should be aware that most faculty are considered “resource connection employees” in relation to Title IX concerns. This means the faculty member is not required to report information they receive about sexual misconduct to the Title IX Coordinator. Resource connection employees are instead required to share information about reporting to the Title IX Coordinator and designated confidential resources with individuals who have been impacted by sexual misconduct. If students wish to speak to a confidential resource about their incident, they can contact the USU Sexual Assault and Anti-Violence Information Office (https://www.usu.edu/saavi/), USU Counseling and Psychological Services (https://aggiewellness.usu.edu/logan/mentalwellness), or the community-based organization CAPSA (https://www.capsa.org).

**Program Residency**

Students admitted to the Program post-bachelor’s degree are required to complete 2 full-time academic years of graduate study in the Program plus a year-long internship prior to receiving the specialist degree. Students are expected to maintain continuous full-time enrollment during each academic year of the Program, with the exception of the internship year. The School of Graduate Studies defines full-time enrollment as (a) 9 or more credits per term, or (b) a minimum of 6 credits when employed as a graduate assistant for at least 15 hours per week, or (c) a minimum of 3 credits if only the research component of the degree is remaining and all other coursework is complete. Extenuating circumstances that require part-time or lapses in enrollment will be considered on a case-by-case basis and must be approved by (1) the Major Professor and (2) the Program Director (in that order).

**Social Media, Online Outlets, & Electronic Presence**
Students should be aware that their use of social media, online outlets, and other electronic presences (e.g., voicemail prompts and email signature lines) may be reviewed by the Program if such use appears to violate legal or ethical guidelines. Students should also be aware of the following potential implications for any public material they produce or support via social media and other online outlets:

- Practicum and internship sites may conduct online searches of student names and review resulting public material prior to inviting students to interview and/or ranking students for the internship match
- Clients may conduct online searches of student names and review resulting public material prior to deciding to work with students or during the tenure of the professional relationship with them
- Potential employers may conduct online searches of student names and review resulting public material prior to deciding to interview or hire for a professional position

Students should also avoid the following actions when using social media or online outlets:

- Speaking on behalf of the Program, Department, College, or University
- Engaging in any behavior using University materials that may be construed as copyright infringement or plagiarism
- Sharing confidential or potentially identifying information regarding clients that they serve or the duties they perform during Program-sanctioned practicum
- Speaking negatively regarding individuals, groups of persons, systems of care, or other entities that collaborate with the Program to facilitate training opportunities
- Depicting or sharing the image or persona of any Program faculty or other University employee without that person’s permission

**University Student Code**

The University has a comprehensive Student Code that outlines the rights and responsibilities of students, regulations governing student behavior and discipline, and a variety of other issues that are germane to student expression and protection. The full Student Code is beyond the scope of the Handbook, and therefore students are referred to the original document to review and resolve any questions regarding University policies: [https://studentconduct.usu.edu/studentcode/](https://studentconduct.usu.edu/studentcode/).

**Student Records**

Student records are maintained by the Program Director and the Graduate Program Coordinator in an online BOX folder that is created by the Department. Records maintained in the student’s file include copies of all monitoring and evaluation forms used to gauge student progress, including annual evaluations, practicum/internship evaluations, and evaluation forms specific to milestone projects. Any records related to remediation plans, program dismissal, or
complaints and grievances are also kept in this file. The student’s file is confidential and governed by the Federal Education Rights Privacy Act (FERPA). Information about FERPA as it relates to student rights can be found here: https://www.usu.edu/registrar/records/control/ferpa. Students records are kept in this manner throughout the duration of the students’ graduate training and are then retained for 7 years post-graduation. Those with regular access to students’ files include the following persons: the student themselves, all core and associated Program faculty, the Graduate Program Coordinator, the Department’s Business Manager, and the Department Head.

**Bystander Intervention**

USU encourages students to be Upstanders when they witness problematic situations or behaviors. Bystander intervention can happen before, during or even after an incident occurs, and you can be an Upstander in four ways: (1) addressing the situation directly by talking to the individuals involved, (2) delegating by asking others to help or referring the individuals to a campus or community resource, (3) creating a distraction to disrupt or stop the situation, or (4) delaying your response to the situation by waiting to address it until after it has happened. More information about being an Upstander is available at https://upstander.usu.edu.

Appendix A: Specialist Student Annual Evaluation
v.08-08-20

Student:
Year in Program:
Major Professor:
Date Program faculty conducted evaluation:
Date evaluation was communicated to student:

The purpose of the Specialist Student Annual Evaluation is to provide students in the School Psychology EdS Program with formal feedback from the Program faculty regarding their (1) progress in key Program domains, (2) status regarding major Program requirements, and (3) overall progress in the Program. This evaluation form must be completed by the students’ Major Professors, after reviewing and discussing the students’ annual progress with the other Program Faculty.

Prior to marking the annual evaluation, Program Faculty will review the following documents, as applicable: (1) students’ current graduate transcript from USU, (2) a report summarizing the students’ practicum hours to date, (3) supervisor evaluations from practicum completed during the previous year, (4) supervisor evaluations from teaching or research assistantships completed during the previous year, and (5) previous annual evaluations.

To achieve satisfactory overall progress in the Program, students must receive “Satisfactory” marks in the majority of Program domains and “Complete” marks on all major requirements that are relevant to their current year in the Program.

**Evaluation Rubric**

**N/A** = Not applicable. Curriculum domain is not yet applicable to student progress.

**INAD** = Inadequate. Student exhibits inadequate progress in the Program domain that accords with expectations for current year in the Program. Student requires inordinate supervision and feedback from Faculty to make progress.

**SATI** = Satisfactory. Student exhibits satisfactory progress in the Program domain that accords with expectations for current year in the Program. Student requires typical supervision and feedback from Faculty to make progress.

**EXEM** = Exemplary. Student exhibits exemplary progress in the Program domain that exceeds expectations for current year in the Program. Student requires minimal supervision and feedback from Faculty to make progress.

Appendix B: School-Based Practicum & Internship Evaluation
v.08-19-19

Student:
Year in Program:
Major Professor:
Date the Program Faculty conducted the evaluation:
Date the evaluation was communicated to the student:

The purpose of the School-Based Practicum & Internship Evaluation is to provide students in the School Psychology EdS and PhD Program with formal feedback from supervisors regarding students’ demonstration of competencies outlined in the National Association of School Psychologist’s (NASP; 2010) Model for Comprehensive and Integrative School Psychological Services, NASP’s (2010) Standards for Graduate Preparation of School Psychologists, and the Program’s training goals and objectives. For both EdS and PhD students, this evaluation form must be completed by students’ primary supervisors at the end of each semester of their school-based practicum in Year 2. EdS students must also have their primary supervisor complete this form at the end of each semester of their school-based internship in Year 3.

Students’ demonstration of competencies should be evaluated by supervisors according to expectations for specialist-level internship readiness. To be eligible to begin a specialist-level internship, students must receive at least “Emerging” marks from their most recent supervisor across all Global Competencies in the Spring semester of Year 2. To successfully pass internship, students must receive “Satisfactory” marks across the majority (but not all) Global Competencies rated by their most recent supervisor.

Questions or concerns regarding the content of this evaluation should be addressed to the student’s faculty supervisor at USU: [INSERT NAME AND CONTACT INFO]

Evaluation Rubric

**NOBS = Not observed.** Supervisors did not observe students engaging in practice related to this competency or related sub-skills.

**INAD = Inadequate.** Students fails to exhibit any evidence of the competency or fails to exhibit the competency adequately given their current level of training. Students demonstrate ineffective sub-skills and require inordinate supervision and feedback from the Supervisor.

**EMER = Emerging.** Students exhibit the competency at an emerging level that is characteristic of novices in early stages of training. Students demonstrate sub-skills with varying levels of effectiveness and requires typical supervision and feedback from supervisors.
**SATI = Satisfactory.** Students exhibit the competency at a satisfactory level that is on par with expectations for interns and early-career practitioners. Students demonstrate sub-skills effectively with typical supervision and feedback from supervisors.

**EXEM = Exemplary.** Students exhibit the competency at an exemplary level that exceeds expectations for interns and early-career practitioners. Students demonstrate sub-skills effectively with minimal supervision and feedback from supervisors.

Appendix C: Research Lab Experience Report & Evaluation
v.08-11-20

Student:
Year in Program:
Semester:
Major Professor:
Date evaluation was completed:

The purpose of the Research Lab Experience Report and Evaluation is to track and appraise the progress of students in the School Psychology EdS Program toward completing their research lab experience requirement. This form should be completed at the end of the Fall and Spring semesters, during the student’s first two years in the Program. To properly complete this form, students must (1) document the number of hours they spent involved in lab activities that semester and (2) draft a summary of their lab activities as it relates to both consuming and producing research. Major Professors must (3) review and approve the student’s hours and summary and then (4) evaluate the student’s level of engagement in lab activities related to consuming and producing research. To successfully complete the research lab experience requirement, students must complete a grand total of at least 360 research hours (an average of 90 hours per semester, over 4 semesters). Students must also receive average marks of “Satisfactory” or better for 80% (4/5) of the evaluation domains across all four evaluation periods (semesters).

Student’s Report

Total # of research hours completed this semester:
Grand total # of research hours so far (across semesters):

Consuming Research Summary

Producing Research Summary

Major Professor’s Evaluation

Evaluation Rubric

INAD = Inadequate. Student exhibits inadequate progress in the Program domain that accords with expectations for current year in the Program. Student requires inordinate supervision and feedback from Faculty to make progress.
SATI = Satisfactory. Student exhibits satisfactory progress in the Program domain that accords with expectations for current year in the Program. Student requires typical supervision and feedback from Faculty to make progress.

EXEM = Exemplary. Student exhibits exemplary progress in the Program domain that exceeds expectations for current year in the Program. Student requires minimal supervision and feedback from Faculty to make progress.

Appendix D: Test Taker Score Report for the Praxis ® Exam

Note. Following is a sample deidentified test-taker score report for the School Psychology PRAXIS® Exam. This report is generated by the Educational Testing Service® and sent directly to students following completion of the exam. Students are responsible for sharing a PDF copy of this report with the Program faculty.

**SECTION I**

**Your Most Recent Test Results**

<table>
<thead>
<tr>
<th>Test Name and Code</th>
<th>Your Score</th>
<th>Score Recipient and Passing Information*</th>
</tr>
</thead>
<tbody>
<tr>
<td>SCHOOL PSYCHOLOGIST (5402)</td>
<td>179</td>
<td>UTAH STATE BOARD OF EDUCATION (8375) ✔Passed+</td>
</tr>
</tbody>
</table>

* The passing information in Section I pertains only to your most recent test results for any score recipients selected with your registration. If you have taken one of these tests previously, check Your Highest Scores and Overall Passing Status in Section II for your highest score. If no passing information is displayed, you did not select a score recipient.

**SECTION II**

**Your Highest Scores and Overall Passing Status**

Below are your highest test scores from the past 10 years and the overall passing status (for any score recipients selected for your most recent tests). Passing status is based on the passing score in effect on the test date or on the date reported. Scores are not reported if test is not required by the score recipient. Score recipients reserve the right to accept the reporting of scores but not necessarily the Passed/Not Passed status. Passed/Not Passed information is not provided if more than one qualifying score is used for a test, if qualifying score is not available, or if test taken is not used by the score recipient.

**UTAH STATE BOARD OF EDUCATION (8375)**

Appendix E: Remediation Plan Documentation
v.12-02-19

Name of student:
Names of faculty support team:
Date plan initiated:

Problem Details

Describe the data that was collected and reviewed to identify the problem:

State the problem to be remediated:

Describe why the problem warrants a remediation plan:

Remediation Plan Details

State the goals of the plan:

Describe the actions/steps to be taken by the student:

Describe the actions/steps to be taken by faculty to support the student (if applicable):

Describe the timeline(s) for the steps stated above:

Describe how students’ responsiveness to the plan will be monitored and evaluated:

Progress Monitoring and Evaluation Details

Date of evaluation opportunity #1:
Describe the student’s responsiveness to the plan and next steps (if applicable):

Date of evaluation opportunity #2:
Describe the student’s responsiveness to the plan and next steps (if applicable):

Date of evaluation opportunity #3:
Describe the student’s responsiveness to the plan and next steps (if applicable):

Appendix F: Grievance Report  
v.12-02-19

Name of grievant:
Name of reporter (if different than grievant):
Date report filed:

Grievance Details

Date, time, and location of event(s) leading to grievance:

Date reporter became aware of event(s) (if different than above):

Witness to event(s) (if applicable):

Detailed description of grievances, including nature of events and names of other persons involved (if applicable):

Description of violations of relevant policies, procedures, etc.:

Resolution Details

Description of previous attempt(s) to resolve concerns and outcome(s):

Proposed solution(s) to resolve concerns (if applicable):
